Trip Report to []

25X1

1. In company with [] a visit to [] was made on 25 and 26 May. Step wedges for Hyscan Pan as well as sensitometric data (see Enclosure 1) were collected. The procurement of the test film was discussed and will probably be received on or about 1 July here in Washington. The coating run is to be made just prior to shutting down the film alleys for the summer.

25X1

2. The qualities that are to be worked into the proposal for the Hi Speed Processor were discussed and are appended as Enclosure 2.

3. A tour of some of the [] facilities was accomplished on Tuesday, 26 May. The laboratory where the light sensitive dyes are produced was visited as well as the quality control laboratories and portions of the production lines of the factory.

25X1

4. Tuesday noon and afternoon was spent in finishing the discussions and reaching agreements.

5. [] was highly impressed by Hyscan Pan and the various rapid processing techniques.
